

THE SPA

After an exhilarating morning of horseback riding through the desert, refresh and rejuvenate at the spa, which features ingredients grown in the desert. A treatment is just the thing to soothe sore muscles and treat sun-soaked skin. Before or after a treatment, enjoy a walk around the labyrinth, a tool that can clear the mind and calm anxieties during periods of transition and stress.

Here is a sampling of the many spa treatments available:

HOME SWEET HOME TRANQUILITY BATH	30 minutes
---	-------------------

Relax and recline in a claw-foot tub with our exclusive tranquil bath scented with soothing natural aromatic extracts of grape and orange, rose and vanilla oils. Guaranteed to leave your skin nourished, moisturized and velvety soft. A wonderful complement to any of our massages.

TRANQUILITY SCRUB	45 minutes
--------------------------	-------------------

Imagine the luxury of a complete body exfoliation with a natural milk and fruit scrub, followed by a light veil of our precious skin-perfecting milky body oil. Complete relaxation and skin softening at its best.

DESERT OASIS MASSAGE	30 or 60 minutes
-----------------------------	-------------------------

Paradise in the desert. A masterful blend of tropical flower essences and exotic sweet lime makes up our tropical mango massage oil. This unique blend provides relief of stress, anxiety and depression, while providing emotional optimism. This oil balances tart and sweet, evoking images of a lush oasis after a desert crossing.

GALLOPING MANICURE	30 minutes
---------------------------	-------------------

There are occasions when we don't have time to sit still for a full manicure. Thirty minutes will allow for quick attention to the nails, an application of hand cream and a buff or polish. Enjoy a beverage and let us help you get ready for your evening.
